RYAN OSWALD

CO-CREATOR & CO-HOST

"The technical skeptic who wants an explanation - until the evidence answers back."

Ryan Oswald is the co-creator and co-host of Haunted Bloodline. His interest in the paranormal began at age fourteen while working late nights inside an old magic shop, where unexplained noises and the appearance of a dark shadow figure left a lasting impression. Having sensed unusual activity since childhood, Ryan remains open to the paranormal while searching for proof and logical explanations.

Ryan brings a technical, skeptical approach to investigations, working to separate explainable phenomena from genuine mysteries. He uses humor and sarcasm to balance even the most unsettling moments - especially when spirit-communication devices appear to respond with his name. A professional magician for more than twenty years, musician and experienced stage and screen performer, Ryan's understanding of perception, misdirection and observation gives the series a distinctive investigative edge.
